

NEW IN PVDF hollow rods

In order to avoid unnecessary plastic waste and to save machining time, KVG – in conjunction with a well-known german manufacturer – has started adding PVDF hollow rods to its range.

advantages of our new product:

- material savings and cost minimization compared to the conventional PVDF solid rod
- time savings when machining and processing turned and milled parts
- Sustainability through minimizing waste
- Shrinkage minimization through other cooling processes

Available dimensions

OD / ID x Length [mm]
50 / 17 x 1050 mm
63 / 38 x 1050 mm
63 / 29 x 1050 mm
75 / 51 x 1050 mm
75 / 35 x 1050 mm
90 / 50 x 1050 mm
110 / 62 x 1050 mm
140 / 93.2 x 1050 mm
