

KVG

Kunststoff-Vertriebs KG

YOUR PARTNER IN PLASTICS

with export experience in over 40 countries

KVG

In the plastics trade, we supply the chemistry sector as well as equipment and plant construction. With a comprehensive and wide product range, we always guarantee a timely delivery. We establish our quality standards with passion, reliability and honesty. For us, quality means a constant corres-

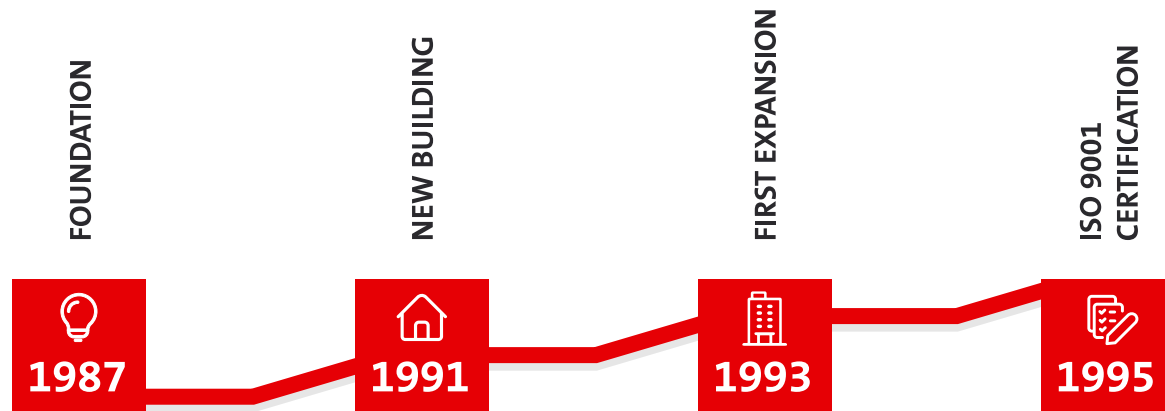

pondence of requirement and service. The focus of the organization is ensured by our quality management. The top management is therefore responsible for ensuring that quality policy and quality targets coincide with the strategic focus and context of the organization.

CERTIFICATION

The mission statement and relevant procedural instructions according to DIN EN ISO 9001 document our quality management system.

COMPANY HISTORY

CONSULTATION

The highest standards for our work and our products define our daily business.

With strong partners by our side, we are always able to provide you with the ideal product for your needs.

Qualified and certified companies are our defining culture in purchasing and sales.

Make your needs our duty!

DELIVERY

Combined with our structured warehouse logistics, we supply an all-inclusive package under one roof with our company's vehicle fleet.

Our drivers deliver your products often on a weekly basis and, in the immediate vicinity, even on a daily basis.

An extra service is available for express deliveries and special journeys.

STORAGE

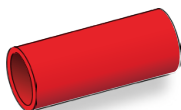

At our Staudt location next to the A3, we store plastics for tank, equipment and pipeline construction on approx. 16,000 square meters.

Short internal communication channels and goods management systems with the latest technologies and requirements guarantee correct and traceable storing. Product availability is constantly controlled and proactively adapted.

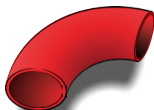

PRODUCTS AND MATERIALS

To meet our customers' high standards, we have built a warehouse on over 16,000 square meters. This contains various materials for applications from chemistry and industry in pipeline, plant and equipment construction and for lining.

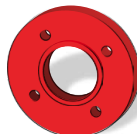

PIPING SYSTEMS

Pipes
(plain & fabric backed)

Fittings

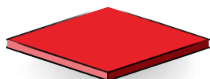

Flanges

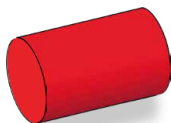

Mountings

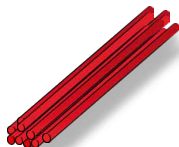

SEMI-FINISHED PRODUCTS

Sheets
