Sample Outfit

HÜRNER White Line
HWT 160 M+

HÜRNER HWT 160 M+
with wide aluminum master clamps

This is a practical plastic butt-welding machine for jointing PE and PP pipes and fittings from O. D. 32 – 160 mm (1½" – 6") with the heating element process, which caters for PP pipes of up to SDR 11 and PE pipes of up to SDR 17.6.

This movable welder that represents the next generation ships with wide aluminum master clamping assemblies into which steel reducers or (optionally) aluminum reducers can be fitted.

The machine can be used both in the workshop and on worksites. It offers many opportunities for application and is especially suitable for sanitary installations, drain piping, and pipes for conveyance under pressure.

The machine ships with a sturdy stand, an electrical facing tool, an electronically controlled heating element, and all reducer inserts. The master clamps offer flexible positioning at an angle of up to 15 deg., thereby enabling segmented-bend manufacturing in sizes 32 – 160 mm (1½" – 6").

HÜRNER HWT 160 M+ characteristics

P/N	200-260-...	
HWT 160 M+ (230 V), 32–160 mm with wide aluminum master clamps, incl. steel reducers	**-250**	
HWT 160 M+ (110 V), 32–160 mm with wide aluminum master clamps, incl. steel reducers	**-350**	
HWT 160 M+ (230 V), 1½"–6" with wide aluminum master clamps, incl. steel reducers	**-550**	
HWT 160 M+ (110 V), 1½"–6" with wide aluminum master clamps, incl. steel reducers	**-950**	
Operating range	O.D. 32–160 mm l O.D. 1½"–6"	
Materials	PE, PP	
Input voltage	230 V, 50/60 Hz	
Rated power	1.8 kW	
Weight of machine incl. of all reducers in case	62 kg	
Overall dimensions of machine incl. stand (W × H × D)	730 × 1200 × 550 mm	
Reducers	32, 40, 50, 63, 75, 90, 110, 125, 140 mm l 1½", 2", 3", 4", 5"	
Accessories	Steel storage box for reducers, user's manual, tools	
Optional components		
Reducer set for HWT 160 M+, aluminum (32–140 mm)	P/N:	200-050-100
Reducer set for HWT 160 M+, aluminum (1½"–6")	P/N:	200-050-150
